## **Assignment-3**

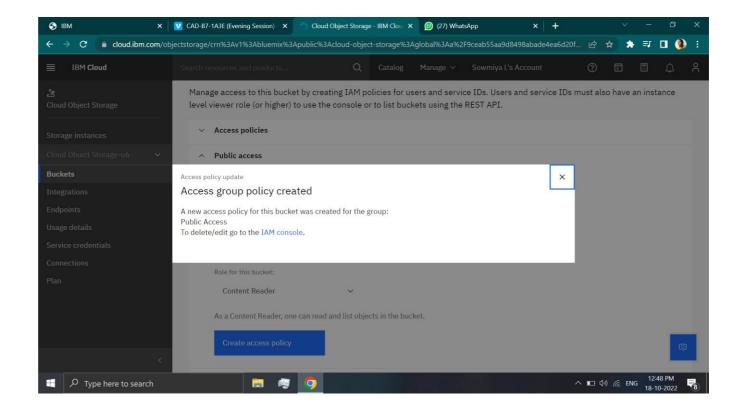

Date	10 October 2022
Team ID	PNT2022TMID30600
Project Name	Skill and Job Recommender
	Application

### 1. CREATE A BUCKET IN IBM OBJECT STORAGE.

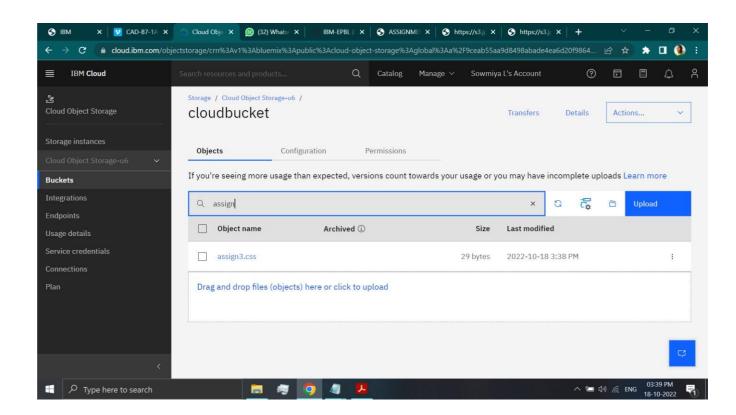

2. Upload an 5 images to ibm object storage and make it public. write html code to displaying all the 5 images.

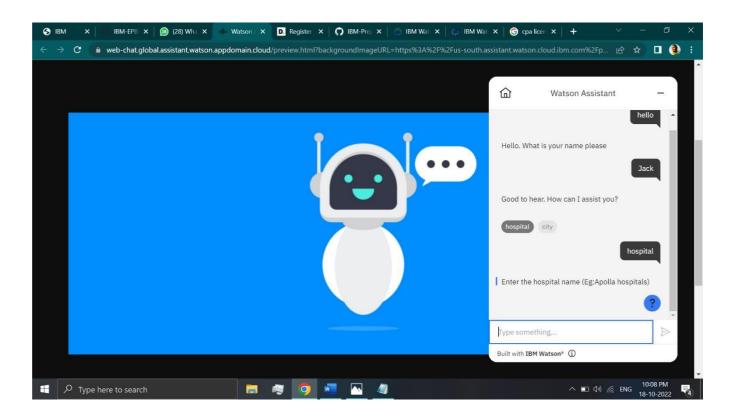

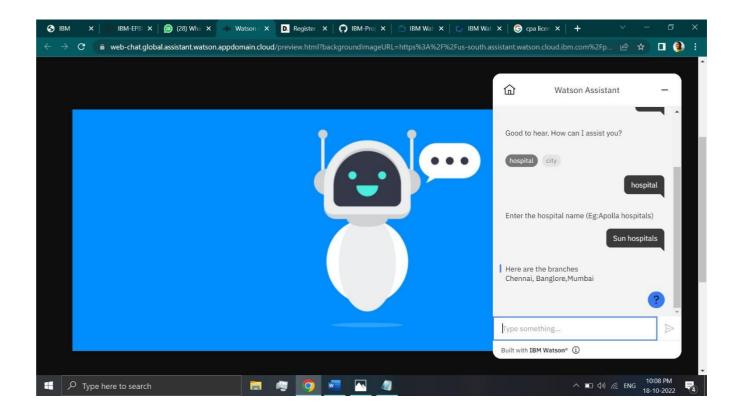

3. Upload a css page to the object storage and use the same page in your HTML code.

```
index.html - Notepad
                                                                                                                                                                                                                                                                                                                                                                                                    O

                                                                                                                                                                                                                                                                                                                                 100% Windows (CRLF) UTF-8
                P Type here to search
```

4. Design a chatbot using IBM Watson assistant for hospital.

#### Web URL for Assistant:

### https://web-

 $\frac{chat.global.assistant.watson.appdomain.cloud/preview.html?backgroundImageURL=https\%3A\%2F\%2Fussouth.assistant.watson.cloud.ibm.com\%2Fpublic\%2Fimages\%2Fupx-6e95bee9-8d0b-49f6-8a2f-4125fb3a7945\%3A\%3Ab437fcda-6135-46e5-9e62-faa901cdce2d&integrationID=14b83b8f-3dfd-405f-9520b550092892aa&region=us-south&serviceInstanceID=6e95bee9-8d0b-49f6-8a2f-4125fb3a7945$ 

5. Create Watson assistant service with 10 steps and use 3 conditions in it. Load that script in HTML page.

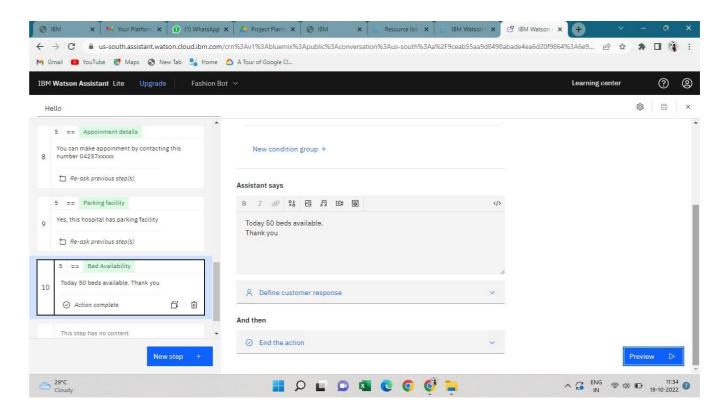

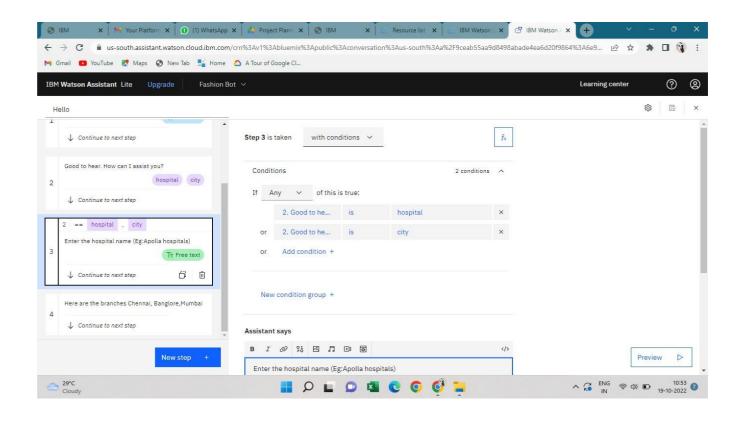

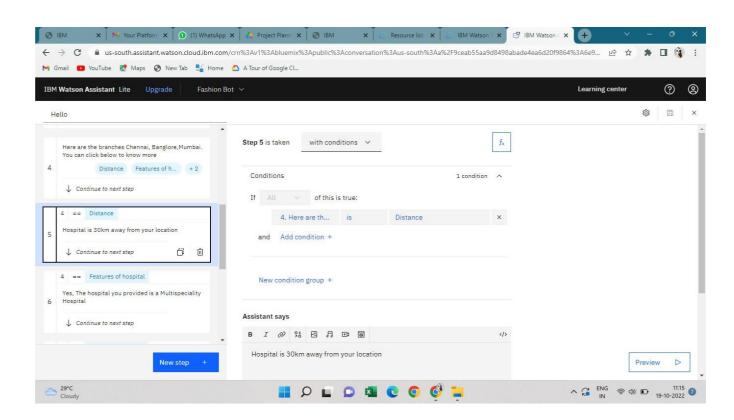

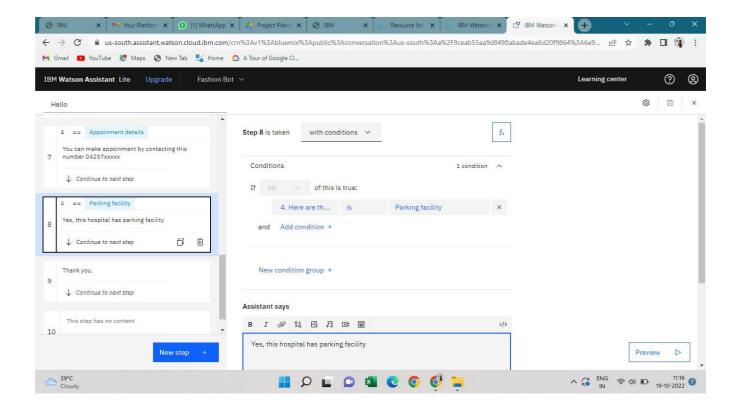

Figure 1. 10 steps of conversation

# **Included 3 conditions in steps:**

### Index.html

```
